

REMARKS

This paper presents amendments under 37 C.F.R. §1.312 to the specification to conform the Title to the claims allowed in this application. According to MPEP §714.16, the examiner has authority to enter amendments submitted after Notice of Allowance of an application which embody merely the correction of formal matters in the specification or drawing, or formal matters in a claim without changing the scope thereof, or the cancellation of claims from the application, without forwarding to the supervisory patent examiner for approval. Because the amendments presented in this paper include only corrections of formal matters in the specification, the examiner is authorized under MPEP § 714.16 to make the amendments presented herein.

In the statement of reasons for allowance the Examiner provided various reasons for allowance. Applicants will not specifically address or respond herein to the issues/points raised by the Examiner in the Examiner's provided remarks. However, this should not necessarily be viewed as constituting acquiescence by Applicants as to the correctness of some or all of the Examiner's provided remarks.

Moreover, Applicants note that the claims are directed to various combinations of features. It is respectfully submitted that the patentability of each of the allowed and allowable claims resides in every feature of the recited combination of features of the claims in addition to the features noted by the Examiner.

Applicants submit that no new claims or new matter has been added to the application. Nonetheless, should any additional fees be required, please charge Deposit Account No. 09-0466.

The attorney of record invites the Examiner to contact him at (310) 553-7977 if the Examiner believes such contact would advance the prosecution of the case.
